

F3100 – Multi Level System

Description:

Linear filling and storage system made up from linear conveyors C1100, gravitational roller conveyor N1100 and lift Conveyor.

Standard Technical Specifications:

Conveyor Frame	Anodised extruded aluminium profile. Die cast aluminium alloy head supports.
Sidewalls	1 anodised extruded aluminium profile 1 stainless steel adjustable sidewall.
Stand Support	Castors with brakes.
Belt	Green PVC Max temperature resistance 80°C
Drive	Direct (right side) 3 phase – 400Vac/50Hz – 0.18kw asynchronous motor
Speed	3,4 m/min, 6,8 m/min
Sensor	Photocell/ refracting to detect the box in the filling position and box presence
Roller Conveyor Frame	Anodised extruded aluminium profile. Extruded aluminium profile rollers supports. Extruded aluminium profile box stop.
Control	Touch Screen
